PRINCIPIA EL ESPINAR 2020 LUNAR

This still red wine comes from bush vines planted between 1950 and 1970. The variety, Tinta Madrid, is a descendent of Tempranillo but after so many years in this climate and on this soil it has transformed into something different. The winery allows us to ferment at low temperatures in concrete and stainless steel tanks, after which the wine goes into the barrel, where I like to leave it to do its thing with as little movement and as much tranquility as possible.

VARIETY

80 % Tinta Madrid, 20 % Juan García

ORIGIN

D.O Arribes

SOIL TYPE

Various types of decomposed granite

PLANTATION

1910 to 1950, bush vines without irrigation
